

Get Road Smart

So you'll always be there.

As a driver, you know that following safety rules and regulations keeps you on the road and earning a paycheck. But it does more than that. Safety compliance also protects everyone on our motorways, including you—to ensure you'll always be there for your loved ones. At the Federal Motor Carrier Safety Administration, our job is to ensure that safety is Job 1 for everyone in the industry.

That's why we've launched the Get Road Smart campaign as part of our compliance and enforcement program, Compliance, Safety, Accountability (CSA).
